

Health Medicine Forum

Presents:

Rethinking Wellness Series

MEANINGFUL PURPOSE: THE REALIZATION OF OUR POTENTIAL

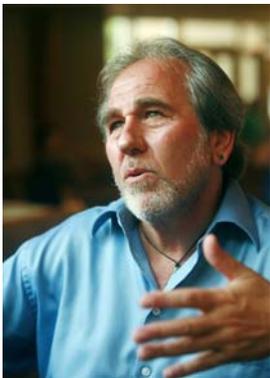

May 24, 2010

Networking: 7:00 pm

Presentation: 7:30 pm

Join Bruce H. Lipton, PhD, for an evening of insight, humor and enlightenment as he explores:

- How our perceptions of the environment, modulated via our thoughts, emotions, and developmental programming, can dynamically regulate our cellular behavior and control genetic activity.
- How the understanding of these scientific revisions regarding genetic control mechanisms, the influence of energy fields, and the primacy of the nervous system, in the regulation of our biology, will profoundly alter the foundations of our future healthcare.
- This new biological model of mind-body interactions which allows merging of allopathic, complementary and spiritual healing practices into an integral system that educates, empowers and promotes self-responsibility for our health care.
- How a rational scientist's journey into stem cell research, led him into a new understanding of the spiritual component of our existence, and the realization that we exist within a purpose-filled universe of infinite potential.

Bruce H. Lipton, PhD:

- Has been examining the principles of quantum physics since 1982
- His research at Stanford, between 1987 and 1992, revealed that the environment, operating through the membrane, controlled the behavior and physiology of the cell, turning genes on and off
- An internationally recognized leader in bridging science and spirit
- Author of *Biology of Belief* and co-author of *Spontaneous Evolution*

Moderator – Michael Buchele, MD:

- Board Certified in Internal and Emergency Medicine
- Former Chief of Staff John Muir Medical Center, Concord campus
- Board of Directors of Health Medicine Forum
- Board of Directors of Arthur Young's Institute for the Study of Consciousness

Health Medicine Forum

A non-profit educational foundation of health care providers and community leaders dedicated to producing educational events, certifications, programs, Integral Healing Groups, and to the advancement of Integral Health Medicine which is based on integrative, holistic, person-centered care.

Visit www.HealthMedicineForum.org for more details and upcoming events.
